

**Quadratic
optimal control
of MJSs**

Issue 1

Synchronous
iteration
[22]-[29],[31],[32]

Issue 2

Admissible
control policy
[22]-[28]

Non-monotonic
convergence
[22]-[29],[31],[32]

Issue 3

PE condition
[22]-[29],[31],[32]

Offline solution

Model-based
RL algorithm

Online solution

Model-free
RL algorithm

Asynchronous
iteration

Monotonicity
guaranteed

Easy
initialization

IE condition
